

APPENDIX C

The maps contained in this appendix summarize the trends for group 90 (top 20% of fine mass) days. The icons mark the site locations, a solid dot indicates an insignificant slope, the empty arrow indicates a positive or negative slope that is significant in the range of $0.05 < p \leq 0.1$ level of probability, and the solid arrow indicates a positive or negative slope that is significant at better than 0.05 ($p \leq 0.05$) level of probability.

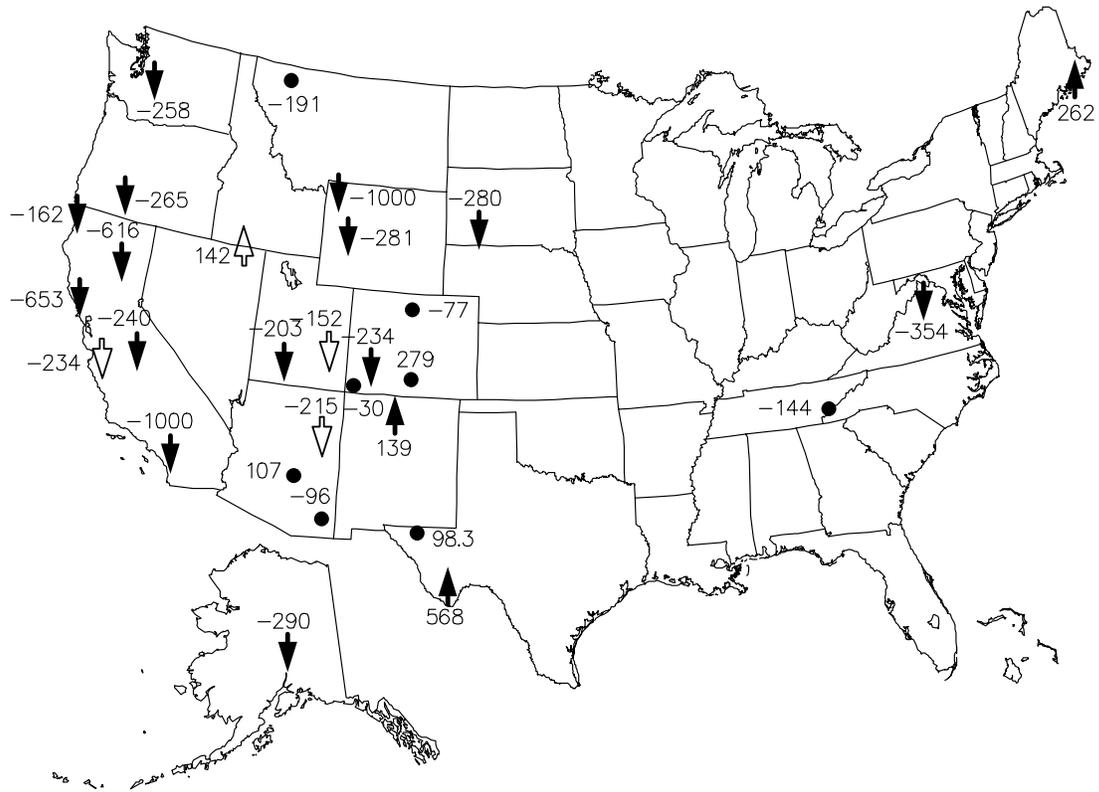

ABSORPTION – Worst 20%

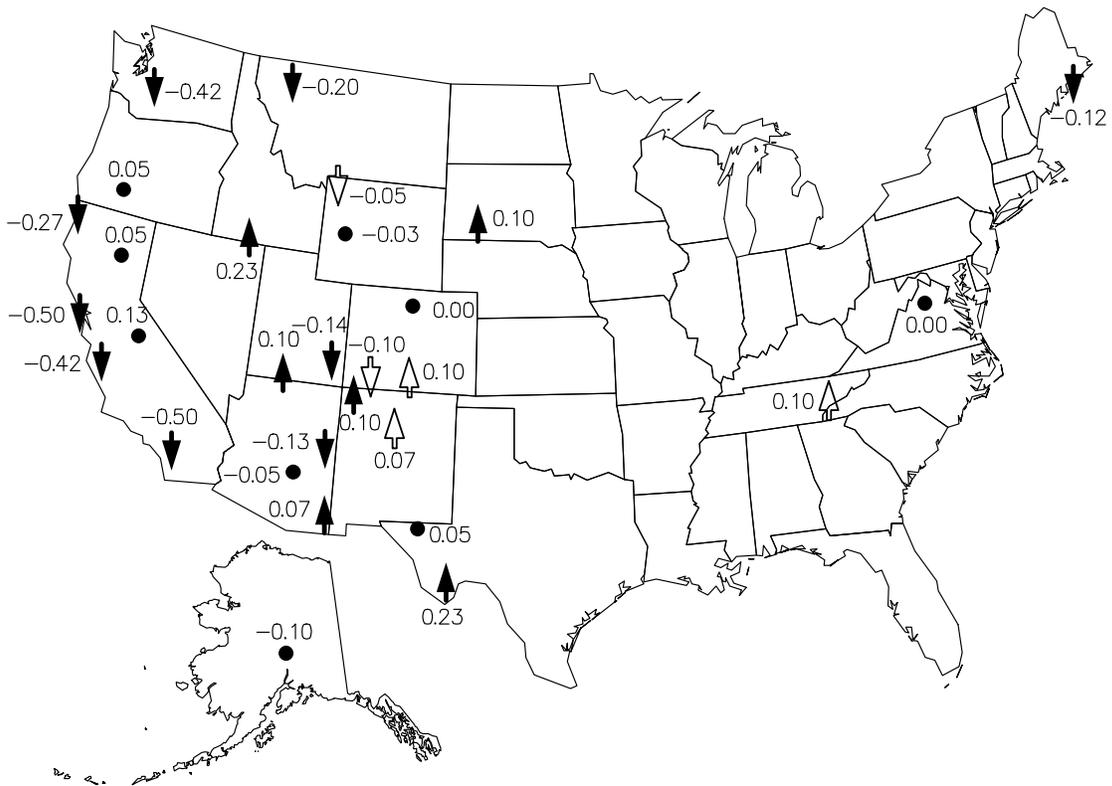

AEROSOL Bext – Worst 20%

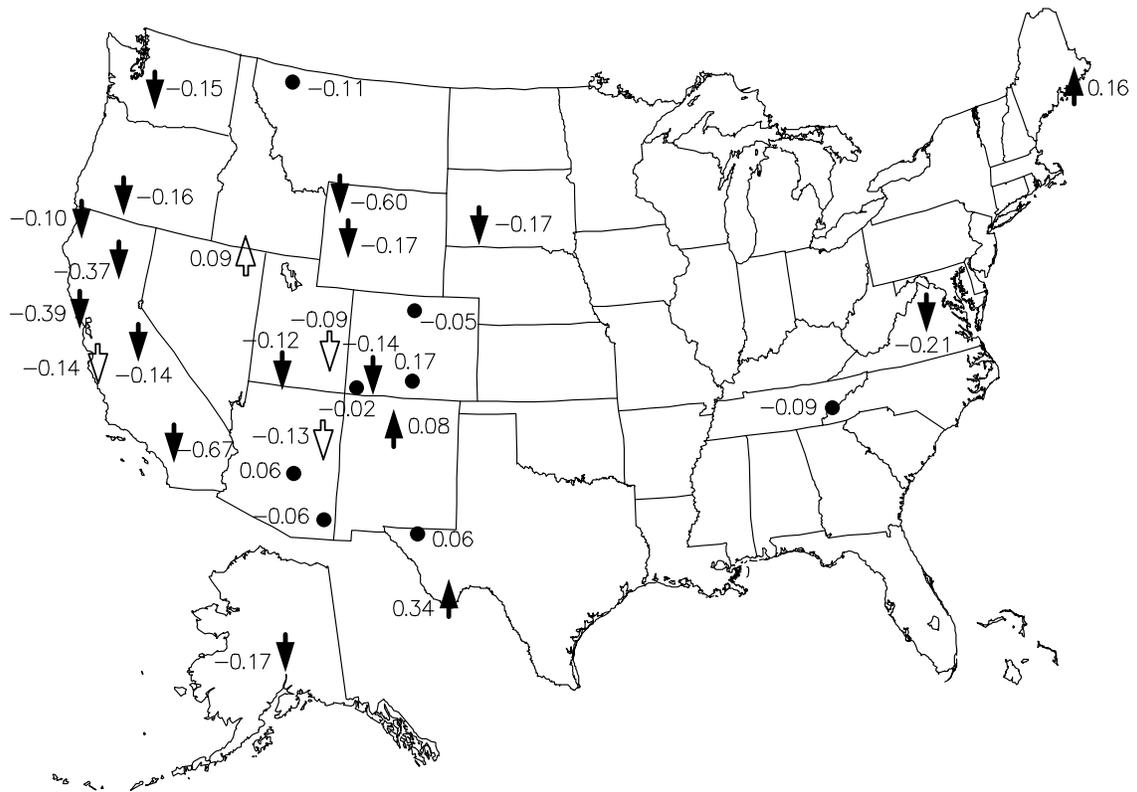

Coarse Mass — Worst 20%

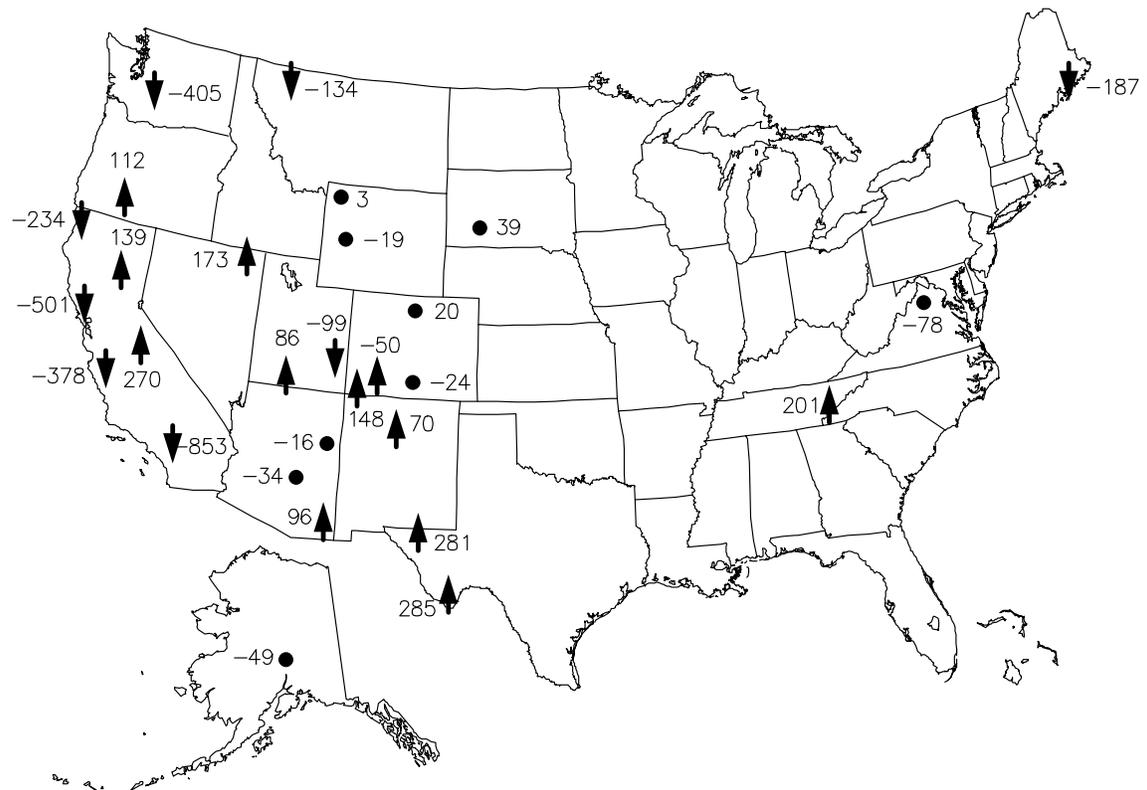

Deciview — Worst 20%

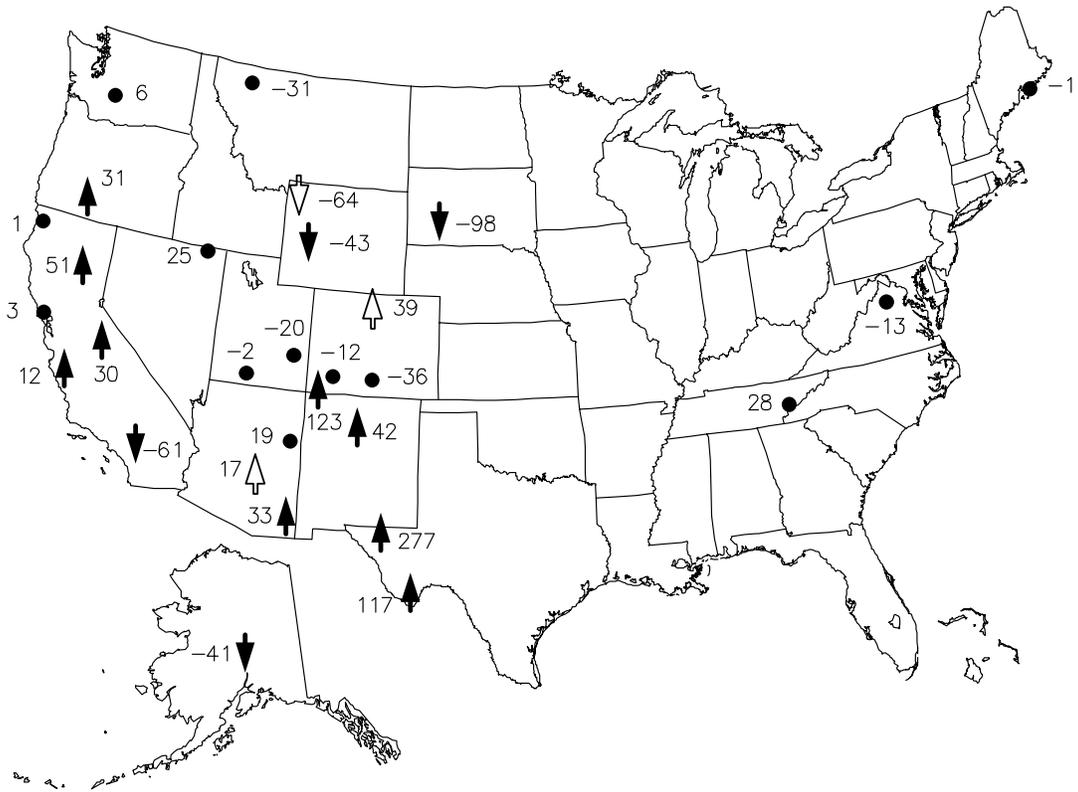

FINE + COARSE Bscat - Worst 20%

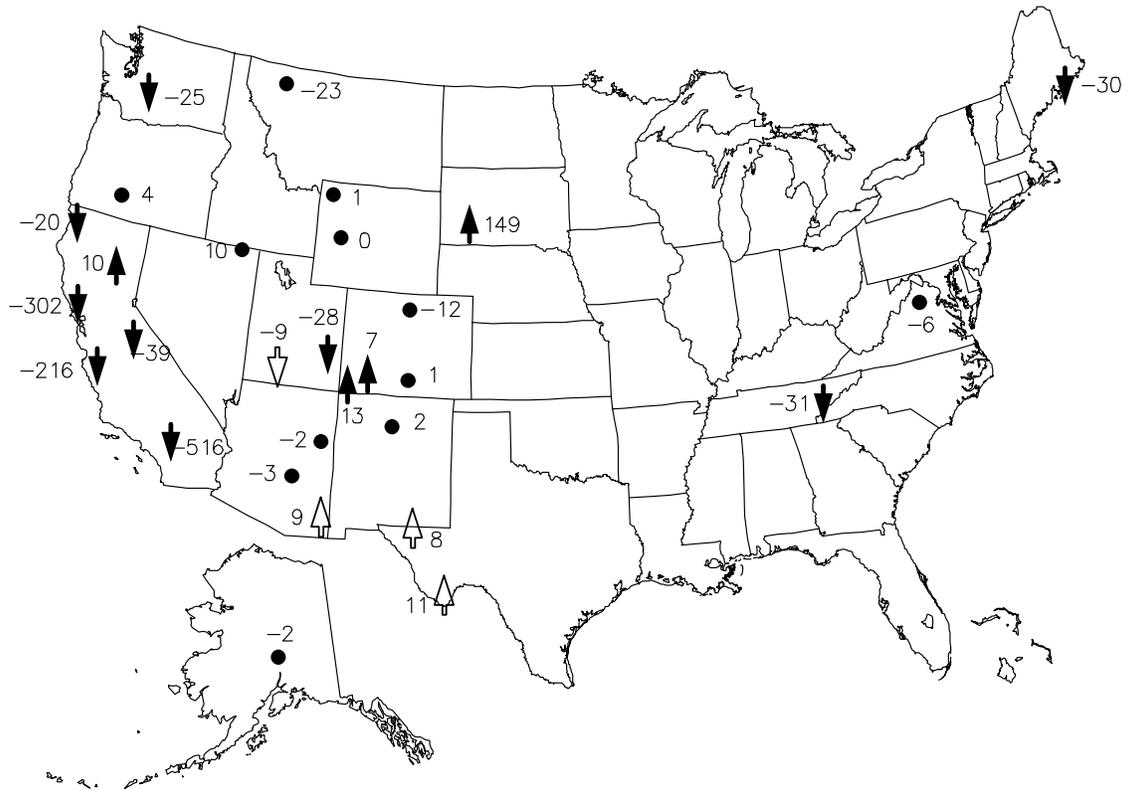

FINE MASS - Worst 20%

FINE SOIL – Worst 20%

NITRATE – Worst 20%

SULFATE Bscat – Worst 20%
